

LABYRINTH FOR “MANDALAS: PLANTING SEEDS OF LOVE II (online.)”

This is the Labyrinth from the floor of Chartres Cathedral in France. For those inspired to do so, we will be transferring this image onto our watercolor paper for the first class. (Beginners can wait on this.)

What you need: a copy of this in black from a printer or copier which has toner (not an ink jet printer.) The transfer tool you will need is called a CHARTPAK BLENDER which you can get at an art store.
