MANDALAS AND THE SACRED GEOMETRY OF FLOWERS
SEPTEMBER 3— OCTOBER 8, 2026

Let's explore painting the essence of flowers and the different geometric patterns within them. Observe flowers growing from a single petal or "oneness," to those with 2, 3, 4 petals, etc. Create mandalas expressing how these energies of flowers and geometry speak to us personally. Or, pick an oracle card for the week, or receive your own flower in meditation or become aware of what flower or flowers are wanting to speak to you.

Have fun, play, keep it simple and ask for help!
